

President's Communiqué

Dr. Ken Kitts

September 11, 2020

Colleagues: Please see below for important updates from the University of North Alabama:

Budget for FY 21: Vice President Evan Thornton and his staff have completed work on the budget for FY

21. We have been fortunate in that enrollment had the same growth as last year. The loss of international students, coupled with our coronavirus response and recovery, has left us with a \$3.9 million deficit through travel savings (expenditures on business and athletic support), holding vacant positions open, and applying savings from FY 20.

As the year unfolds, we should be able to manage this challenge. The good news is that we can offset this deficit through travel savings (expenditures on business and athletic support), holding vacant positions open, and applying savings from FY 20.

As the year unfolds, we should be able to manage this challenge. The good news is that we can offset this deficit through travel savings (expenditures on business and athletic support), holding vacant positions open, and applying savings from FY 20.
